

Submitted by Deanna Hilbert prior to Oversight Hearing on December 2, 2014

Governments, States, Municipalities that have stopped Smart Meter installation and/or have gone back to analog

No Fees

- Port Angelus, Wa + county-delays, soft ware issues, opposition, can keep analog, no fees
- Eugene, Oregon-stopped program and went back to analogs, no fees. Decision based on medical testimony and community opposition
- Ashland, Oregon -free opt out
- Maine-retain analog, no charge because the MPUC failed to properly address health and safety concerns
- Vermont-can have analog, no charge

Governments/ Municipalities with Analog Option with fees

- Portland, Oregon
- Florida
- California-Ina addition, 57 local governments have banned voted opposition to Smart Meters in their community
- Nevada
- Georgia
- Arizona- 19. 000 residents refused, Smart Meters, plans to charge for analog option is on hold, pending an investigation on health issues. In addition thousands of smart meters are being replaced due to massive smart meter recalls in Florida, Portland, Oregon, Saskatchewan
- Maryland-opt out fees
- Hawaii-opt out fees
- Saskatchewan-reverted to analogs, all Smart Meters to be removed because of documented fire risks
- BC-fees, current class action lawsuit re: Smart Meters
- Medicine Hat. Alberta-suspended program because of fire risks
- Quebec-opt out, fees reduced
- Germany-stopped rapid roll out, concerned due to cost-benefit analysis by Ernst and Young-that the “lions’share” of the costs could fall to households”
